

EASYLIFT TRIPOD SYSTEM

Portable, safe lifting equipment from **Anglia Handling Services Ltd.**

The Easylift portable tripod frame system is designed to lift a pump out from a sump in a safe manner and for the operatives to simply slide it to one side for safe inspection, repair or replacement.

To ensure the safety of the operative, a fall arrest harness can be attached to the frame, which has also been designed for single man riding.

Key Benefits:

- ✓ Easy and quick to assemble
- ✓ Conforms to the work at height regulation
- ✓ Stable construction
- ✓ Load can be moved without needing to pull the equipment from its centre of gravity
- ✓ Operatives are safe and secure
- ✓ Designed to be erected by one person

Key Design Features:

Load trolley

Sliding load trolley allows the load to be easily and safely moved to a safe working area

Man Riding

Adjustable man riding point for safety when entering sumps

Spirit Level

Built in to help with erection on uneven ground

Fall arrest

Two fall arrest points for secure fastening of the operatives when working above open sumps

Adjustable Legs

15 height adjustment points for uneven ground and taller loads

Adjustable Beam

Allows the footprint area to be reduced

Size Adjustment:

Height Range: 1475 to 2160 mm

Width Range: 2240 to 2560 mm

Depth Range: 1000 to 1500 mm

The Easylift system can be supplied with the following accessories:

Transport Trolley

A simple and easy way to transport and store the Easylift. The trolley also allows the safe transport of the load to the operators van if required.

Spreader Beam

The spreader beam allows the easy removal of manhole covers and other access points. A range of keys are supplied, which simply connect to the cover via the spreader beam. The Easylift is then used to safely lift the cover up and move away to one side.

Load Locking Pin

The load locking pin allows the operator to simply lock the trolley into place through a simple twist and click mechanism. Supplied in a set of two.
