

Safe Materials Handling... Are you using Best Practice?

Hooka - Takes the Man out of Manual Lifting!

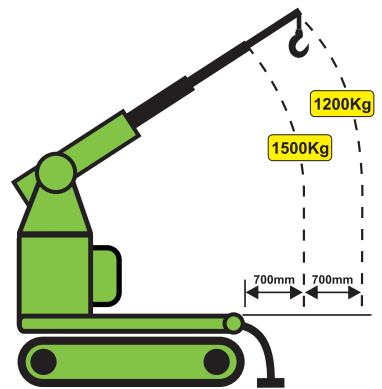

- Helps employers discharge their 'Duty of Care' to prevent Manual Handling injuries
- ONLY 1 metre wide to match pallets and bulk bags - providing unrivalled access
- Delivers materials from roadside into the heart of your site - no more barrowing and bad backs!
- Revolutionary 'load-lock' technology, transforms the payload into 'ballast' for the Hooka - eliminating the danger created by suspended loads and ensuring total machine stability
- Ideal for transporting and installing park sculptures, street furniture, I-Beams, block paving, bulk building materials, factory equipment and plant
- Weighs only 1.8 tonnes - easily delivered by HIAB or standard plant trailer - yet lifts 1.5 tonnes

Hooka- Saves Time, Money, Risk and Liability!
