Suction feet for sacks

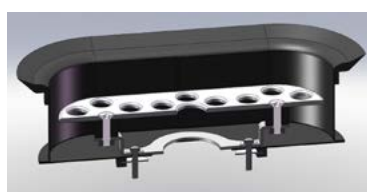

Product Description	Item no	Stainless steel	Model
165 × 270 mm	630300	630305	VM30-50

Product Description	Item no	Stainless steel	Model
180 × 370 mm	610300	610305	VM60-80

Product Description	Item no	Stainless steel	Model
205 × 460 mm	620300	620305	VM100-120

Product Description	Item no	Stainless steel	Model
Limiting plate to decrease the depth of the suction foot from making marks in the bag surface.	630308		
	610308		
630308 for 630300			
610308 for 610300			

Product Description	Item no	Stainless steel	Model
Rubber skirt.	630303		
630303 for 630300	610303		
610303 for 610300	620303		
620303 for 620300	630323		
630323 for 630320	610323		
610323 for 610320	620323		
620323 for 620320			

Suction feet for sacks

Product Description	Item no	Stainless steel	Model
190 × 310 mm	630320	630325	VM30-50

Product Description	Item no	Stainless steel	Model
240 × 405 mm	610320	610325	VM60-80

Product Description	Item no	Stainless steel	Model
240 × 405 mm	620320	620325	VM100-120

Product Description	Item no	Stainless steel	Model
For woven and jute bags. Used for lifting from short side/top.	610460		VM60-80
For high lifting, use flex handle VacuEasylift unit			

Product Description	Item no	Stainless steel	Model
For woven and jute bags. Used for lifting in large top surface/flat side.	610430		VM60-80
For high lifting, use flex handle VacuEasylift unit. Remark, for flex handle need to integrate valve box into the tool handle.			

Product Description	Item no	Stainless steel	Model
	610490		VM60-80

Cardboard

Product Description	Item no	Stainless steel	Model
Suitable for small non-taped cartons. 100 × 250 mm.	630700	630705	VM30-40

Product Description	Item no	Stainless steel	Model
Suitable for small non-taped cartons. 140 × 205 mm.	630710	630715	VM30-40

Product Description	Item no	Stainless steel	Model
Suitable for small non-taped cartons. 120 × 320 mm	640700		VM30-50

Product Description	Item no	Stainless steel	Model
Flat suction cup with tape guard for taped cartons. 200 × 320 mm	610700	610705	VM60-80

Product Description	Item no	Stainless steel	Model
Flat suction cup with tape guard for taped cartons. 200 × 290 mm	610710	610715	VM60

Product Description	Item no	Stainless steel	Model
Flat suction cup for long non-taped cartons. 125 × 580 mm	610500	610500SS	

Cardboard

Stainless steel

Model

Cardboard

Product Description

Adjustable four bellow feet yoke.
Available in different sizes.
(Customer specific design)

Reference

MK07693

Model

Available
for all

Product Description

Side lifter, usable for lifting cartons from the side. Useful when lifting open or non-taped cartons with open lids.
Cup adjustable in height.

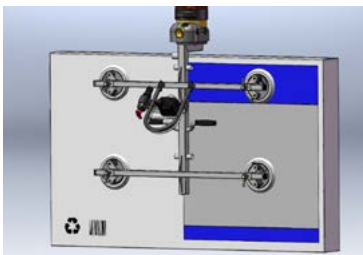

200 × 320 mm

Item no

610850

Stainless steel

Model

Product Description

Side lifter for large carton boxes from the side.
Example: TV cartons or furniture boxes.
Available in different sizes.
(Customer specific design)

Reference

MK06696

Product Description

Side lifter for carton boxes from the side.
Example: lifting to high level

Tips, combine with cross bar and release valve for easy release.
Cross bar: #620900

Available in different sizes.
(Customer specific design)

Reference

MK06516

Cardboard

Product Description

Top side lifter.

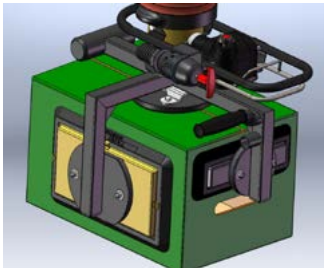

Example: Deep heavy boxes where all suction feet can't fit on top but too large for lifting only from the side.

Example: Strapped boxes with loose lid where straps are not strong enough to carry all the load, the extra side foot will help ease the load from the straps.

Available in different sizes.
(Customer specific design)

Reference

MK06516

Product Description

Double side lifter with feet on perpendicular sides.

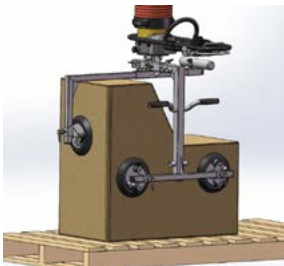

Example: For cartons where it's not possible to lift from top and the carton is too big for only lifting from one side.

Example: For cartons where it's not possible to lift from top and the carton is too small to fit all suction feet on one side.

Available in different sizes.
(Customer specific design)

Reference

MK07286

Product Description

Double side lifter with feet on perpendicular sides.

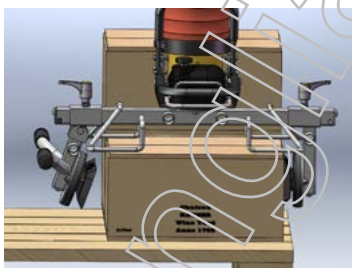

Example: For cartons where it's not possible to lift from top and the carton is too big for only lifting from one side.

Example: For cartons where it's not possible to lift from top and the carton is too small to fit all suction feet on one side.

Available in different sizes.
(Customer specific design)

Reference

MK06488

Product Description

Double side lifter with feet on opposite sides. One side hinged for placing both cups on the carton.

Example: For cartons where it's not possible to lift from top and the carton is too big for only lifting from one side.

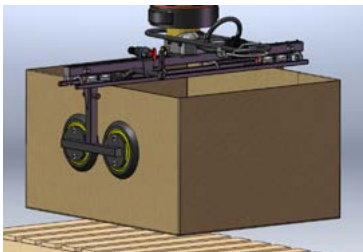

Example: For cartons where it's not possible to lift from top and the carton is too small to fit all suction feet on one side.

Available in different sizes.
(Customer specific design)

Reference

MK07621

Cardboard

Product Description

Double side lifter with feet on opposite sides. Synchronized positioning of suction cups for easy operation and covering of large range of box sizes.

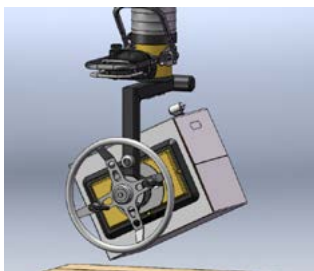

Example: For cartons where it's not possible to lift from top and the carton is too big for only lifting from one side.

Example: For cartons where it's not possible to lift from top and the carton is too small to fit all suction feet on one side.

Available in different sizes. (Customer specific design)

Reference

MK07048

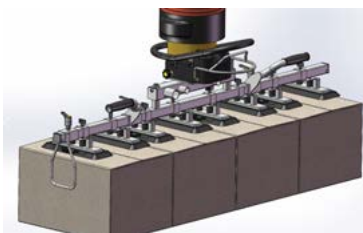

Product Description

Side lifter with rotation from one side. Suitable for turning carton boxes. Available in different sizes.

(Customer specific design)

Reference

MK07294

Product Description

Yoke with suction feet for lifting multiple carton boxes with tape perpendicular with yoke from top.

Reference

6SP0023

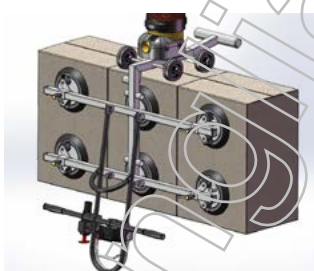

Product Description

Multiple suction feet yoke for lifting multiple carton boxes with tape in line with the yoke from top. Available in different sizes.

(Customer specific design)

Reference

MK06212

Product Description

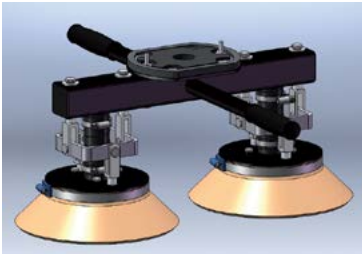

Side lifter for multiple cartons. Available in different sizes.

(Customer specific design)

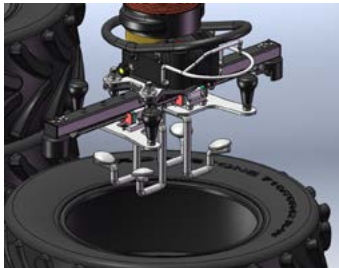

Reference

6SP0067

Rubber bales and tires

Product Description	Item no	Stainless steel	Model
Rubber bale lifter. Both feet are hinged in all directions. Internal knives to penetrate shrinkwrapped plastic. Ø 230 mm (2x)	610860		VM60-80

Product Description	Reference
Synchronized hook for rubber tires. Lifting horizontal to horizontal. Available in different sizes. (Customer specific design)	MK07135

Sheets, pallets and furniture

Product Description

Spider yoke. (4x) suction cups-adjustable. Long side handling. Suitable for large sheets to spread the weight distribution to protect the sheet from deforming.

Available in different sizes.
(Customer specific design)

Reference

MK07749

Tilt handle for angle adapter	630811		VM30-50
	610811		VM60-80
	620811		VM100-120

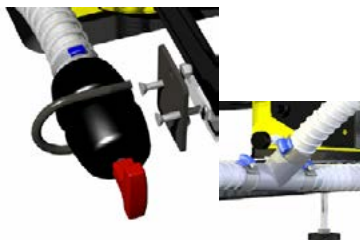

Accessories

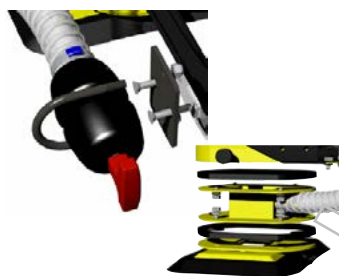

Product Description	Item no	Stainless steel	Model
Universal joint.	610820		VM60-80

Product Description	Item no	Stainless steel	Model
Cross bar handle for VacuEasylift flex handle. Usable for large and heavy objects.	620900		

Product Description	Item no	Stainless steel	Model
Release valve with T-connection piece for easy release of load. Connect between hose on suction foot.			
	Ø25mm 630530		VM30-50
	Ø32mm 610540		VM60-80

Product Description	Item no	Stainless steel	Model
Release valve with vacuum chamber for easy release of load. Installation between suction head and suction cup.			
	Ø25mm 630550		VM30-50
	Ø32mm 610560		VM60-270

Product Description	Item no	Stainless steel	Model
T-valve for connecting two VacuEasylift units to the same pump. Can only work with one VacuEasylift unit at the time. Use valve to switch between units.	610220		

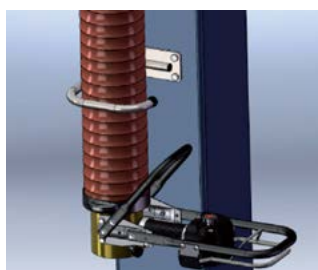

Accessories

Product Description	Item no	Stainless steel	Model
Relief valve to adjust maximum vacuum level. This valve is for regulating the maximum vacuum level. Regulating the maximum vacuum level is a good way to prevent implosion of the lift tube in case the VacuEasylift grips something too heavy. It's also a good way to adjust maximum lifting capacity of a unit.	630190		VM30-50
	610190		VM60-80

Product Description	Reference
Special handle for reach inside box/pallet without bending your back.	MK07110

Product Description	Item no	Stainless steel	Model
Parking hook to go around lift tube.	630420		VM30-50
	630425		VM30-50
	610420		VM60-270
	610425		VM60-270

Product Description	Item no	Stainless steel	Model
Available in stainless steel and plastic			
Pump shelf	1R-32526		
Pump shelf	161010	stainless steel	
Silencing hood vacuum pump medium	661000		
Silencing hood vacuum pump large	662000		
Silencing hood VT4.40	666730		
Silencing hood KVT3.60	666720		

Product Description	Item no	Stainless steel	Model
FDA approved lift tubes available from VM120-200.			VM40-100
Special suction head with WDA approval available. Special suction feet with FDA approved gaskets available.
