

## Lifting and Girder Clamps

### Universal Plate Clamps type CZ

These clamps lift and turn over plates on one smooth operation. Available with a standard hook ring (as shown) or with a short chain sling for easy fitting directly on to a crane hook. Hardened steel jaws are suitable for all structural steel up to 300 Brinell surface hardness.

	Model	WLL (tonnes)	Plate Thickness (mm)	Weight (kg)
	CZ920.5	0.5	0 - 16	1.4
	CZ921.5	1.5	0 - 20	3
	CZ922	2	0 - 32	8
	CZ923	3	0 - 32	10
	CZ924	4	0 - 32	12
	CZ924/L	4	30 - 60	18
	CZ926	6	0 - 50	21
	CZ926/L	6	50 - 100	28
	CZ928	8	0 - 50	26
	CZ928/L	8	50 - 100	32
	CZ9210	10	0 - 50	30
	CZ9210/L	10	50 - 100	37
	CZ9212	12	0 - 50	54
	CZ9212/L	12	50 - 100	63
	CZ9215	15	0 - 50	75
CZ9215/L	15	50 - 100	88	

Larger sizes available on request.

### Hinged Universal Plate Clamps type CY and CX

The CY clamp is based on the CZ clamp incorporating a hinged hook ring. They have been developed especially for the handling of plate at any angle. The CX clamp is particularly suitable for handling fabrications because of the facility of the lifting eye and link.

Hardened steel jaws are suitable for all structural steel up to 300 Brinell surface hardness.

	Model	WLL (tonnes)	Plate Thickness (mm)	Weight (kg)
	CY1	1	0 - 20	4.5
	CY2	2	0 - 32	13
	CY3	3	0 - 32	13.5
	CX1	1	0 - 20	5
	CX3	3	0 - 32	12
	CX6	6	0 - 50	38
	CX6L	6	50 - 100	48
	CX8	8	0 - 50	39
	CX8L	8	50 - 100	51
	CX10	10	0 - 50	61
	CX10/L	10	50 - 100	76
