

Drum Lifting and Turning

Drum Clamp type DC

	Model	WLL (tonnes)	Weight (kg)
	DC500	500	1.2

Designed to lift steel drums (with or without a lid) either singly or as a pair suspended from a 2-leg sling. The clamp is opened by pressing down on the hook ring.

Drum Clamp type DCV

	Model	WLL (tonnes)	Weight (kg)
	DCV500	500	1.2

Designed to lift steel drums vertically (with or without a lid). The clamp automatically grips the rim of the drum when the hook ring is lifted.

Fork Mounted Drum Grips – also available for plastic drums

	Model	WLL (kg)	No. Of Drums	Drum Size (litres)	Fork Spread (mm)	Max. Fork Size (mm)
	FDH-1-110	250	1	110	450	140 x 55
	FDH-1	500	1	210	560	140 x 55
	FDH-1-1000	1000	1	210	550	140 x 55
	FDH-2	1000	2	210	880	140 x 55

Fork Mounted Drum Rotators – also available with sideways rotation

	Model	Capacity (kg)	Operation	Girdle	Drum Size
	DTR-1 DS	360	Handle	Twin Harness	210
	DTR-2 DS	360	Chain	Twin Harness	210
	DTR-1 SC	360	Handle	Single Clamp	210
	DTR-2 SC	360	Chain	Single Clamp	210
	DTR-1 110	360	Handle	Single Harness	110
DTR-2 110	360	Chain	Single Harness	110	

Drum Manipulator - Horizontal/Vertical and Vice Versa

	Model	Capacity kg	Max. Fork Size mm	Fork Spread mm	Drum Size
	DM - 3 tine	400	140 x 50	567	210
	DM - 4 tine	400	140 x 50	567	210

Designed to manipulate Steel and Plastic drums
