

Davits

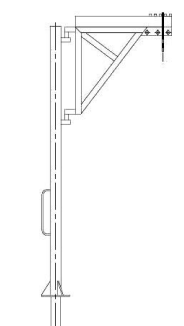

Supplied in a range of capacities and designs. The davit can be permanently fixed in place or portable fitting into a range of sockets for both fall arrest and lifting material loads.

Water industry customers also use our expertise with regard to overhead travelling cranes, monorail gantry systems, jib cranes, stainless and galvanised pump chains, loose lifting tackle and site proof load testing.

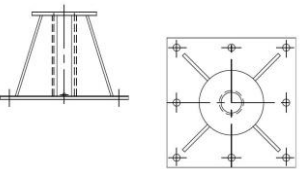

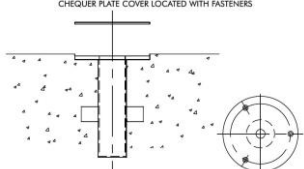

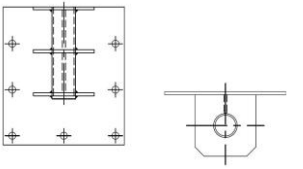

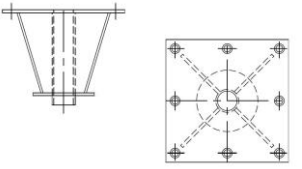

Lean Over Davit

	Capacity (kg)	Reach (mm)
	500	760
	500	1000
	1000	1070
Hot Dip Galvanised		

Vertical Pole Davit

	Capacity (kg)	Reach (mm)
	500	760
	500	1000
	1000	1070
Hot Dip Galvanised		

Davit Socket Options

Surface Mounted	Cast-In	Wall Mounted	Inverted
			

Lifeline Systems

 Floor & roof installation	 Wall installation	 Ceiling installation	<p>We offer a range of lifeline systems that allow complete freedom of movement for working at height.</p> <p>Our systems can be used horizontally or vertically when working on roofs, overhead steelwork, fixed ladders, towers etc.</p>
