Fork Tine Hooks

Used singularly, they quickly transform your forklift truck into a crane.

Model	Capacity (kg)	Min. Tine Width (mm)	Max. Tine Width (mm)	Weight (kg)
TZH1.5/150	1500	100	150	8.5
TZH3.0/150	3000	100	150	12
TZH5.0/150	5000	100	150	16

Fork Mounted Hooks

The most cost effective way of safely slinging a load underneath both forks of your forklift truck. Simply adjust the width across your forks, slide the hook onto the forks and clamp anywhere along their length.
